#### Remarks

Prepare to be impressed by abundant light & beautiful views from every corner of this generously proportioned contemporary home. With 3,600+ sq feet across three levels there is plenty of space for work, play and relaxation. As soon as you enter this superbly maintained and presented home you are greeted by a layout designed for easy living and entertaining. The two story family room complete with fireplace is warm and inviting. While the livingroom's fireplace provides comfort and warmth in the winter the courtyard outside provides space for year round delight. The first floor also incorporates a generously proportioned kitchen, dining room, powder room, and spacious office. The second floor boasts two master bedroom options complete with en suite bath as well as two additional well proportioned bedrooms and a hallway bath. The finished basement space includes play/recreation room as well as a second dedicated office space or homework center. All this and almost a full acre to enjoy!
